

XY is proud to introduce **CONTACTLESS DELIVERY** onto the platform!

With COVID-19 changing the way we handle home delivery, XY has changed the way our client's delivery parcels. Through an advanced OTP solution the receiver can verify themselves through a quick process on their own mobile phone, while the parcel is being sanitized and left at their door.

Stay Safe and please remember to always:

- Respect Social Distancing
- Wash your hand regularly
- Wear a face mask while in public
